NATIONAL ENGINEERING FIELD HANDBOOK
210-VI
PART 650, MN Notice 16

SUBJECT: ENG – NEH PART 650, ENGINEERING FIELD HANDBOOK (EFH)

Purpose. To transmit Minnesota supplement revisions to the EFH

Effective Date. Effective upon receipt

Chapter 4 – Elementary Soils Engineering. This supplement provides a table of typical permeability values by soil type. These values can be used when designing a filter diaphragm for an embankment structure.

The online link to these supplements is http://www.mn.nrcs.usda.gov/technical/eng/MN_EFH.html. Paper versions of the supplement will not be distributed. Field staff should contact their Area Engineer for engineering policy questions.

A handwritten signature in cursive script, appearing to read "Don A. Baloun".

Acting for

DON A. BALOUN
State Conservationist
